To Whom It May Concern,I am appalled that once again the government is attempting to put controls on its citizens. I pay for Satelite Radio each month for a reason, local radio is lousy! I respectfully request that you reject the NAB's petition 04-160, if they want me to listen to local radio they should put some effort into making it worth it. Trying to legislate my listening is not only ridiculous but will not work, I still won't listen to local radio, I will only be less informed about the things I wish to know.  
PLEASE reject petition 04-160!  
Jennifer M. Cannady
